POO ARE WE?

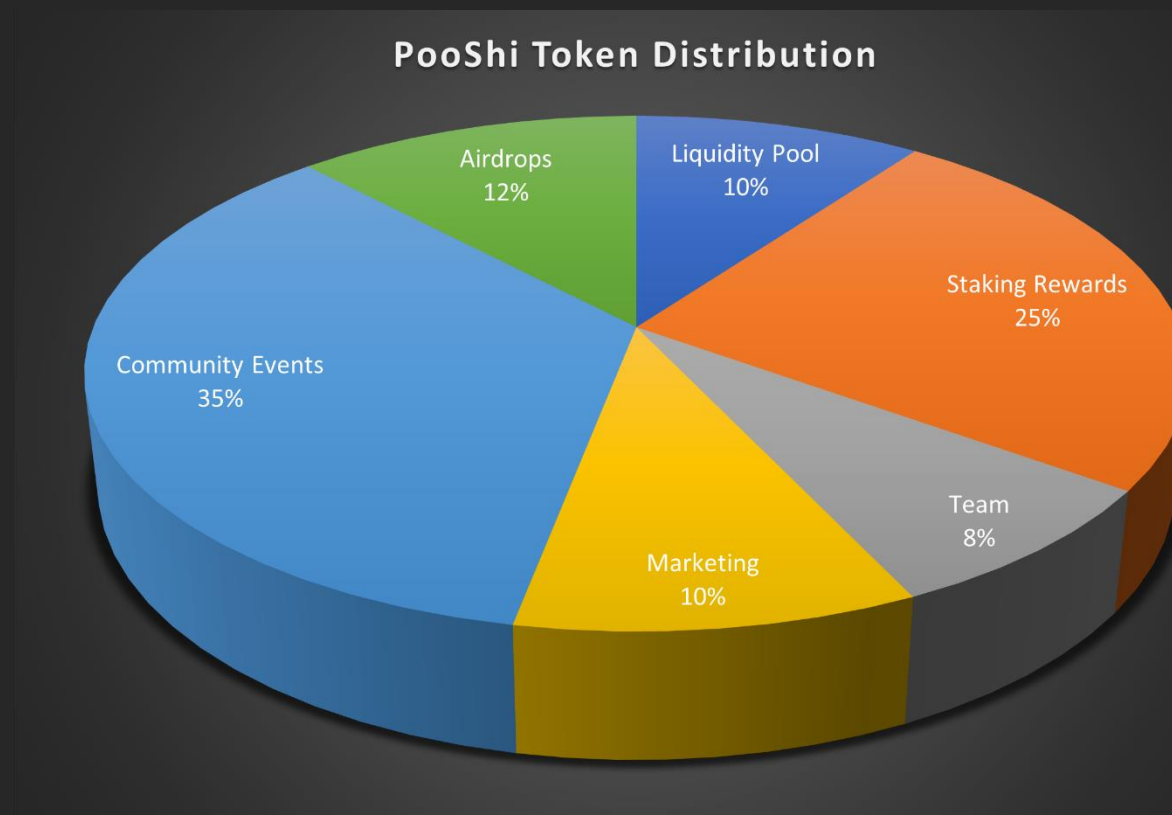

The Legend of PooShi

Legend has it that there once lived a young PooShi pup from a faraway land, who absentmindedly fell into a very deep, dark hole without a helping hand. Over a handful of years the pup matured in the darkness surviving off wacky mushrooms and yucky insects, but without knowledge of the world above had no idea of all the joys and beauty of the world's subjects. The only real activity that PooShi had was pooping in a small, even deeper hole that brought upon immense pleasure; the lore says that all that self-created intoxication became PooShi's passion that evolved into true purpose in great measure. Eventually the day came when PooShi was positive enough to dig out of the hole inspiring the Shiba Inu to express considerable cachinnation; the canine was now capable of hunting down its determination to poop all over space and time without it being another hallucination.

The PooShi Community

Our purpose is to spread PooShi's legend throughout the universe using community inspired competitions, faucet games, play to earn games, free airdrops, NFT collections, a metaverse platform, and community elected events, like token burnings. By utilizing the power of Solana we aim to make the crypto experience more inexpensive, fun, and easy for everyone who's looking to be a part of the cryptocurrency world by evolving PooShi into an enjoyable utility token backed up by an engaged, supportive community of people.

POO-NOMICS

Name: PooShi

Symbol: POS

Network: Solana

Max Supply: 21,000,000,000,000

Mint Authority: FdDEakNRY4k3orJuBXUcm9VkcXd8YXVPjuG5WuRN2tWH

Market ID: GPa4iZhDPJfGUj3RApU1EZ4Xgmstn2CC7E9QVDukKC

Community Events

7,350,000,000,000 POS, or 35% of the Total Supply

Wallet Address: Ht6UGz3QVrrhPE3Ap465eLso2wy7EzpBv5sQXusXm9L6

Community Events are where the lion's share of the POS tokens will be utilized; these tokens go towards 14 community elected events that will occur over the course of the next two years. Starting February 2022, every two months the community will elect and execute on an event that burns, or gives away, 2.5% of the total supply. The PooShi Team will choose the top 3 ideas given by the community and then setup a poll with those ideas, along with the option to burn the tokens, as the choices to pick from for that event. The PooShi Team expects this procedure to evolve as the community grows with practical plans to create a governance

token in the future to improve the PooShi community's voting process and to ensure a clear path for continued decentralizing.

Staking Rewards

5,250,000,000,000 POS, or 25% of the Total Supply

Wallet Address: CXXo4NJksZuGmrTodg6eM8VnFyPkJ2di7Uocr8tuffbj

Staking Rewards tokens will be reserved for the true believers of the PooShi Legend, who possess diamond hands, which wish to watch their POS stash grow daily based on the number of POS tokens they choose to stake and the amount of time they choose to lock up the POS tokens. Starting April 2022, every month for 3 years 0.6944..% of the total supply will be handed out to these deserving PooShi stakers.

Airdrops

2,520,000,000,000 POS, or 12% of the Total Supply

Wallet Address: 7C2XnTuqJe7FpxUd5Sr88Yz95fxjCZ71ocnVNyeFXCL

Unlike other similar projects to PooShi, we believe it's best to avoid giving away tokens to random wallets and instead ensure the tokens are being given away to those who express interest in being a part of the PooShi community by playing faucet games, playing play to earn games, spreading the Legend of PooShi via Social Media Platforms, meme contests, as well as other giveaways to be determined by the PooShi community. We will give away 64% of this 12% of the PooShi's total supply by March 2022 to as many interested people as possible. The other 36% will be given away within future projects developed during 2022 and 2023; we plan to use our Unity development skills to create an ecosystem of faucet games, a metaverse platform, play to earn games, and other interactive experiences.

Marketing

2,100,000,000,000 POS, or 10% of the Total Supply

Wallet Address: DFNljappNwW8jpEUpjE5NmLmjFJ3bSHmiGvf3FJoPgV

The Marketing piece of the POS distribution pie is locked up until the PooShi community votes on when and how to best spend this money to spread the Legend of PooShi across the Universe much faster using various forms of advertising. The first community vote on whether or not to unlock, and utilize, any of the POS tokens locked up for Marketing will be in February 2023; we'll hold additional voting events for the purposed utility of our Marketing tokens every three months after that.

Liquidity Pool

2,100,000,000,000 POS, or 10% of the Total Supply

Wallet Address: FL9Kw3xfS23PeMVDKsxJhzewEPsLNjqxF7cPwL2jUGhs

As the PooShi community scales in size so should the liquidity pool that plays a critical role in ensuring the POS token remains easy and fast to trade, as well as truly decentralized. We will initially utilize 5% of the Liquidity Pool piece of POS token distribution to setup a POS – USDC liquidity pool using [Raydium](#).

Team

1,680,000,000,000 POS, or 8% of the Total Supply

Wallet Address: 4RE3xwbwyqW5xdVg53fQdaszeRmPxAE5TjNgnYXyMePj

Starting March 2022, the Team will distribute 4% of its 8% slice of the POS token's total supply to active members of the Team every two months for 25 consecutive 2-month periods in order to fund the special efforts that make certain that the world knows of PooShi, along with all the exciting, stinky experiences that PooShi would love to share with the world.

The Team is being led by a well experienced senior Unity developer with a history of successfully designing and developing mobile games, PC games, XR experiences, AR experiences, and social applications. Our lead developer has collaborated with various big clients, like the NFL, MLB, Roche and Cartoon Network, to build innovative experiences for their employees and communities. We know we have the leadership, technical expertise, marketing skills and the genuine drive between all of us to help conjure the PooShi community into something utterly amazing for everyone who jumps into the Solana Ecosystem.

POO MAP

Q1 2022

The 64% Airdrop Wallet Distribution is completed.

The 1st Community Event occurs.

Release the 1st Faucet Game, *To The Stars!*, to airdrop another 8% of the total Airdrop Wallet supply.

Complete listings on Coinmarketcap, Coingecko, DexLab, Lanadex, and Catodex.

Q4 2021

Airdrop the remaining 10% of the total Airdrop Wallet Supply to Governance Token Holders and MetaVerse Users.

Release our first Play To Earn game, *Tek-nal*.

DE PROFUNDIS AD ASTRA

"From The Depths To The Stars."

The Legend of PooShi has gone mostly unknown for several of the most recent centuries, but once again PooShi is out there pooping with the same passion that we should all have for the simple things in life, like family, friends, community, humor, games, and love. The happiness in PooShi's face reminds us all of how easily we can take a moment to relax and breathe for a moment to give ourselves a break from our problems, stresses, worries, fears, and doubts. PooShi wants us all to take a moment no matter where you are, and what time it may be, to stop every day for a moment and give thought to on you taken your PooShi poop of the day.
